Wines, Mr. Robertson, a distinguished member of that body, gave the following definition of the Mirror, Haskell, do for Frankfort.

Arat Norfolk 25th, schr Coral, Weisley, Thomaston, for of that body, gave the following definition of the meaning of Free Trade:

" It was idle for us, he contended, to endeavor to persuade other nations to join with us in adopting the principles of what is called Free Trade. Other nations knew as well as the noble lord opposite, and those who acted with him, that what we meant by Free Trade was nothing more nor less, than, by means of the great advantages we enjoyed, to get a monopoly of all their markets for our manufactures, and to prevent them, one and all, from ever becoming manufacturing nations."

Let the American advocates of the Free Trade system ponder seriously upon the lucid English definition of their favorite theory. Let the Whig majority in Congress decide whether they are willing to allow the English manufacturers to get a monopoly of our market, and deprive the laborers of our country of the honest fruits of their indus-

The steamboat from the Kennebec to Boston for the last three years, has divided on an average to the proprietors, something over \$25,000 per year. One year the boat divided \$38,000.

Newburyport Herald.

This, we understand, is a great mistake. We have it from the best authority that the whole amount divided for the last season for both boats was eighteen thousand dollars. The boats cost \$100,000, of which \$30,000 was insured at one per cent. a month. If the whole had been insured. the one per cent, a month on \$70,000 would have made a large deduction from the dividends. In New York the wear and tear of boats and depreciation of value is estimated at from 15 to 20 per cent. per annum. [Ken, Journal.

The above statement from the Newburyport pa per, together with the comments of the Kennebec Journal, we copy for the purpose of stating our conviction that the statement of the Herald (which was taken from our Rail-Road articles) is entirely correct, the Journal's apparant contradiction, not- Averilt James withstanning. We have not made our statement Address Sarah H. ample means for forming a just estimate. We will be a subject, and wenture to say our statement of the profits of the Kennebec steamboat falls short, rather than exceeds. the real sum. The Journal may be correct in stating that \$18,000 Jonly was divided between both boats ! If the "Thorn" and some one or two more losing concerns should be reckoned in, perhaps it might [be said nothing was divided. It was the Baston William Steam-boat, we alluded to and our statement stands unrefated. The rates of interest, wear and tear of Steamboats, &c., proves nothing in this case unless it be the importance of a Rail-Road from the Ken-

"Cold Water Army."

According to previous appointment a large number of the youth of this place of both sexes, together with a number of the other friends of the cause, assembled at the Town Hall on Saturday last, for the promotion of Temperance.

Capt. Samuel Parker was appointed Chairman, and Peleg Wadsworth Secretary.
Upon vote of the meeting, Mr. S. B. Goode-

now offered a plan of union, which was considered, amended, and adopted, article by article, as

Art. 1. This association shall be called the "Youth's cold water army of Bath," and any person under sixteen years of age may become a member by signing the "cold water army pledge."

Art. 2. The officers shall be an executive committee to consist of the several presidents of t

adult temperance societies in this place.

Art. 3. It shall be the duty of this committee, to call meetings whenever they deem it exped ant (and one of them to preside)—to record the proceedings and to see a total content with the content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and to see a total content of the proceedings and the proceedings and the proceedings and the proceedings and the proceedings are to the proceedings and the proceedings and the proceedings and the proceedings are to the proceedings and the procedure of the proceedings and the procedure of ccedings, and to see to the general interests of the association; or if they deem it preferable they shall appoint an individual or individuals to perform these duties.

The names of about four hundred youth were reported as being already on the pledge. After further exercises, the meeting was dissolved.

This is rather a novel movement against the common enemy, and we hope a successful one. May this youtnful army march boldly to the contest, and never yield till they have vanquished

If 37.

D. MARSTON.

The BOSTON ALMANAC, for Will be published about the 20th December DORCHASERS are requested to send in their orders, a early as possible to Mesza. Thomas Graom & Co. 8 State street, Boston, and they will meet with all due atten

tion.

The Business Directory, of the various Business and Professions in Boston, so happily begun in last year's Almanac, will be continued in this, with all the improvements that cur experience may lawe alforded. The Almanac for 1842, will be of the same size as that of 1841, and bound in the same beautiful.

will be of the same size as that of 1841, and bound in the same beautiful style.

37-If there should be any who have not seen this publication, the Proprietor would beg leave to say, that it is a near and compare little volume of 120 pages, well printed, beautifully bound in cloth, lettered in gold, and contains as much matter as ordinary 8vo volume, and is sold for the very low price of 25 cents per copy. The Calendar pages are very complete record of the weather in Boston during the past yea. Also, cach Calendar page is accompanied with a memorandum page, on which the Accounts of a family, or other denestic matter may be registered. The paper, being of a firm texture, is easily written upon.

GORHAM SEMINARY.

HE winterterm of this Institution will commence on THURSDAY, January 6th, and will continue fourteen ks.

JOSIAH PIERCE, Secretary.
39.

Cleanliness of the Head and Hair.

Cleanliness of the Head and Hair.

STRANGE it is that persons who attend strictly to personal cleanliness, baths, &c., should neglect the Head—the Hair—the most essential—the most exposed—and the most beautiful when properly cared for, of all the gifts of the Creator. Perfectly free may it he kept of dandruff or searf with a certainty that the hair cannot fell out, by the use of the Balm of Columbia. Ladies, will you make your toilet without this article? I answer fearlessly, No, if you have once tried-and experienced its purifying effects—its sweet perfume.

A hundred articles have been put forth on the credit of this—the only first—the only really valuable article. A mass of testimony from all classes to these facts. Look out—Counterfeits are alroad, look always for the name of COMSTOCK &Co. on the splendid wrappers and

never buy it without that name. [From the Boston Chronicle, Jan. 10.] rever bny it without that name.

[From the Boston Chronicle, Jan. 10.]

§Cy-We see by an advertisement in another column that Messrs Comstock & Co., the Agents for Oldridge's Balim of Columbia, have deputies to sell that article in Boston and elsewhere.—We know a lady of this city whose hair was so nearly gone as to expose entirely her phrenological developements, which, considering that they betokened a most amidable disposition, was not in reality very unfortunate. Nevertheless she mourned the loss of locks that she had worn, and, after a year's fruitless resort to miscalled restoratives, purchased, some months ago, a bottle or two of Oldridge's Balim, and she has now ringlets in rich profusion, glossy, and of raven blackness. We are not parlingmone of the commodity has been sent to us, and, indeed, we do not want any, for though we were obliged to wear a wig antend regardless the profuse of the commodity has been sent to us, and, indeed, we do not want any, for though we were obliged to wear a wig antend regardless that the loss of the profuse of the p

thirty Whashine quality, obtain both.

During Frand.

The Balm of Columbia-has been unitated by a notorious counterfeiter. Let it never be purchased or used onless it have the signature of COMSTOCK & Co. on a splendid wrapper. This is the only external test that will secure the public from deception.

A T THE PERSON TIME, WHEN THE COUNTRY THESE COLESPATED PILLS ARE COMPLETELY The these celebrated Pills are completely connered, to some supersists to find that they endeaded to supersists the content of set off their Stock of Spurious Pills under ANY same. It is not the first time that the "poor in Indian" has had to father the abortions of cunning set.

The remarkable cures which have been effected by Brandeth's Pills, have estenished the whole medical feculty, many of whom have conceded that they are the greatest blessing that was ever given to the world.

The reason these celebrated Pills have such a universally good effect is because their action hamonizes with the human body.

The person these calebrated fills have such a universally good effect is because their action hamonizes with the human body.

"Parge out the old leaven, that ye may become a new tung," is the language of Holy Writ, a figure applied spiritually, it is true, but how could it have any applied spiritually, it is true, but how could it have any applied spiritually, it is true, but how could it have any applied spiritually, it is true, but how could it have any applied spiritually, it is true, but how could have his figure of Scripture resty is a immoveable get the laws which govern the tides, or occasion the thunders of heaven.

"The Condition."

The condition upon which God has given health to man is a constant care to keep his stomach and bowels free from all morbid or unhealthy accumulations. The means to effect this most be those remedies which cleanse the bowels and purify the blood.

Good healthful medicine is only a species of food; when the animats, whose habits we have the means of observing,

Good healthful medicine is only a species of food; when the animals, whose habits we have the means of observing, are sick, they wander through the fields, and make selection of those herbs which open their bowels and purify their fluids, which immediately restore their health.

When a done of Brandreth's Pills is taken, they are digested, and pass to every part of the system; but they leave the body when they have effected the intended purpose, and health and vigor are by them insured.

Mineral medicines may enter the system; but they are with difficulty get out again; and they always occasion pain and misery while they remain in the body:

Whereas Brandreth's Pills are as innocent as a piece of bread, and are evacuated with the disease for which they are taken.

Mereas Brandreth's Pills are as innocent as a piece of bread, and are evacuated with the disease for which they are taken.

Costiveness, Dyspepsia, Fevers, Inflammations, are all owing to this, and all the troubles attending them could always be prevented by the timely use of Bransreth's Pills, as their very action tends at once to clear the circulation of all impediment, and remove every cause or occasion of impurity from the blood. There are thousands—nay, millions—at this moment, in this country, and all others, whom we may really consider as half dead. They may be said to carry their death in their bowels and circulation. This is no imaginary circumstance. I wish it were. The thousands whom we meet every where with cadaverous looks, sellow skins, and green eyes, speak in a language not to be mistaken, of the state of their stomach and bowels, and the consequent condition of their hlood. The body is thus, while in life, reduced to the condition of a corpse; and the reason why some bodies are so soon in a patrid condition after death, is more from the quantity of impure humors contained in them at the time they expired, than from any other cause. And who is there that will not allow, that if Brandreth's Pills had been employed, so as to have removed those impure humors, that life might not have been sayed? Who ever will but give this subject a very little consideration, will at once perceive the perfect denity between the putrid humors of the body before death, and the humors which occasion the peculiar fector of a dead body.

From the time we are born to the time we cease to breathes our bodies are constantly wasting, and as constantly building up. The action of the atmosphere wears or waste, them. The food we eat, the digestive organs convert into be blood, which renews or builds up by its circulating power.—
Thus the human had y is healthy when the blood circulates freely, and when any thing prevents its free course through the veins, disease commences.

This the human any thing prevents its area of the proof o

ESTLODK OUT FOR IMPOSITION...

IN consequence of the increased demand for TrupantCOMPOUND for cure of SALT RHEUM, &c., it is evideat that hase attempts have been made, and are now making, to insitute the article, and infringe upon his right. He
obtained LETTERS PATENT three years since, both for
the preparation and name; and all persons are hereby cautioned against infringing upon his right, guaranteed by said
Patent, under the severest penalties of the Law. "Rememher" the penalty lies hasinst the seller as well as the maker
of the Article. "Never" buy it unless in has the maker
of the Article. "Never" buy it unless in his the written,
mind—written signature of the inventor. The ointment is
in tin boxes with the leders "W. B. TRUFANT, PATENT,
BATH, ME." stampt on the cover, all others must be false.
That the above medicine is worthy of confidence, is evident
from the fact that (not withstanding its opposition) more than

BATH, ME, "stampt on the cover, all others must be false. That the above medicine is worthy of confidence, is evident from the fact that (not with standing its opposition) more than the fact that (not with standing its opposition) more than packages have been sold within a short time, giving very general satisfaction where faithfully applied. In fact the continual main almost daily instances of its success, which have occurred in this and other States, justifies the proprietor insubmitting it with increased confidence to the public generally. This remedy is recommended, in addition to SALT RHEUM, as good for RING WORM—SCALD HEAD—SHINGLES—LEPROSY—PILES—TICH—PIMPLES—and especially so for the JACKSON or BARBER'S ITCH—As man is hert to humors of a thousand names, the ointment itself is frequently used with entire success. Price 50cts. The interval application, is compased of twelve different ingredients, entirely vegetable, and is estremed highly, as a safence of wholesome drink, for persons generally; particularly in the spring scassm. Frice 50 cts. Numerous certificates from distinguished physicians, clergymen and other professional men, from this and other States are in possession of the proprietor, which might be subjoined if necessary. A word to the wise is sufficient. For sale at the store of the subscriber wholesale and retail, and at the BATH BOOK STORE.—In Brunswick by Webb and Hall—Wiscasset by Edmund Dana, and by his regular agents throughout New Fugland.
